

GetGo

8th of June 2023

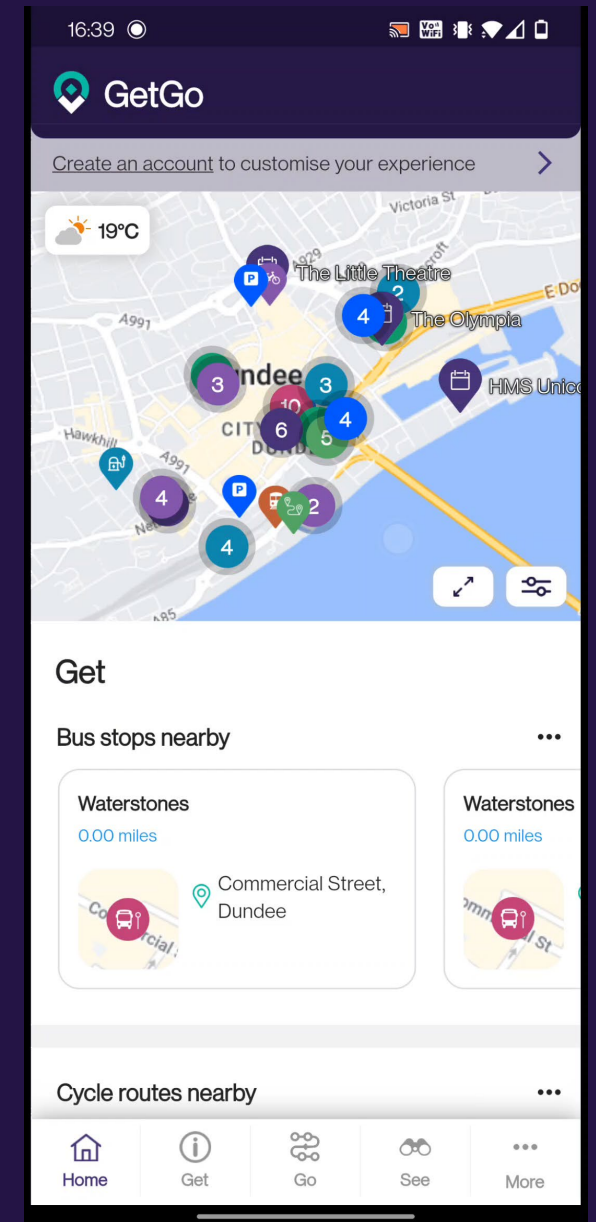

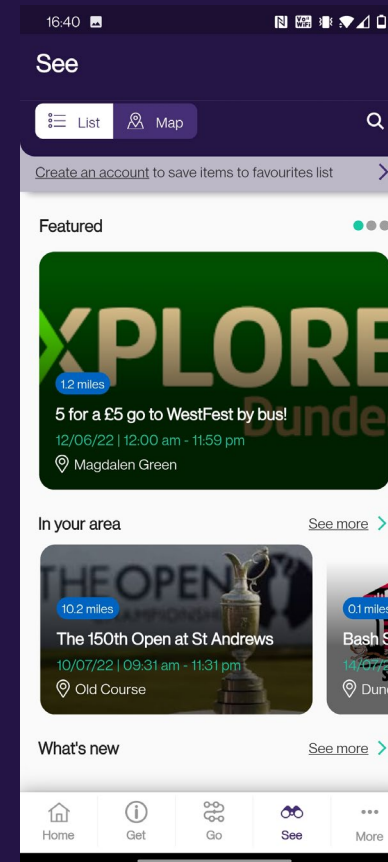

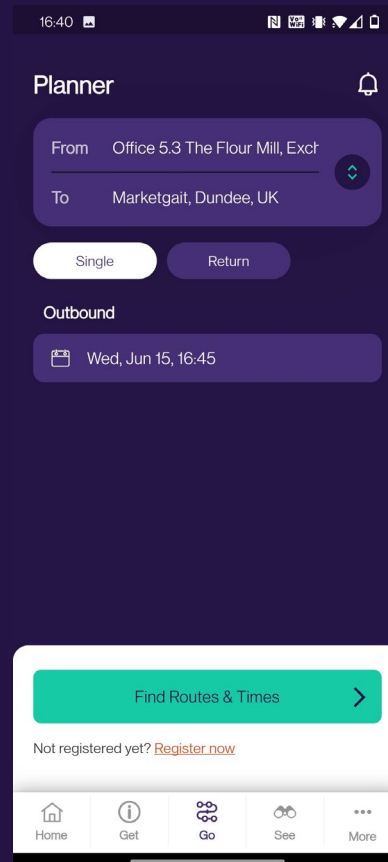

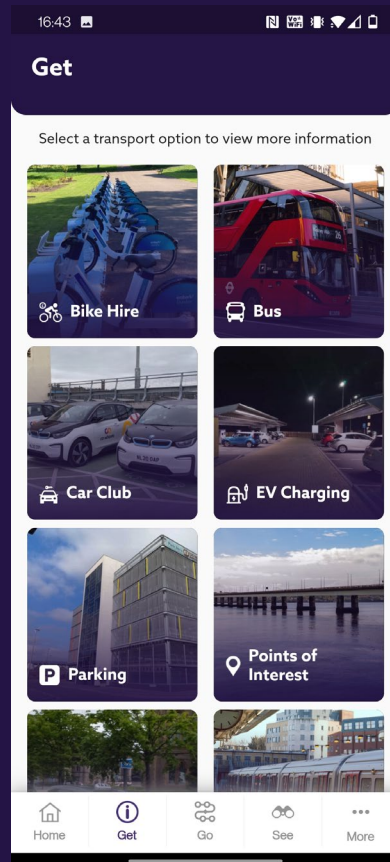

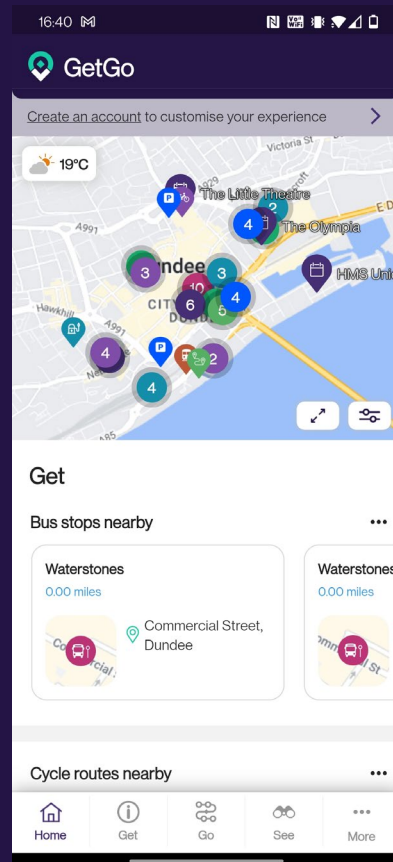

Prepared for the Annual MaaS Scotland Conference

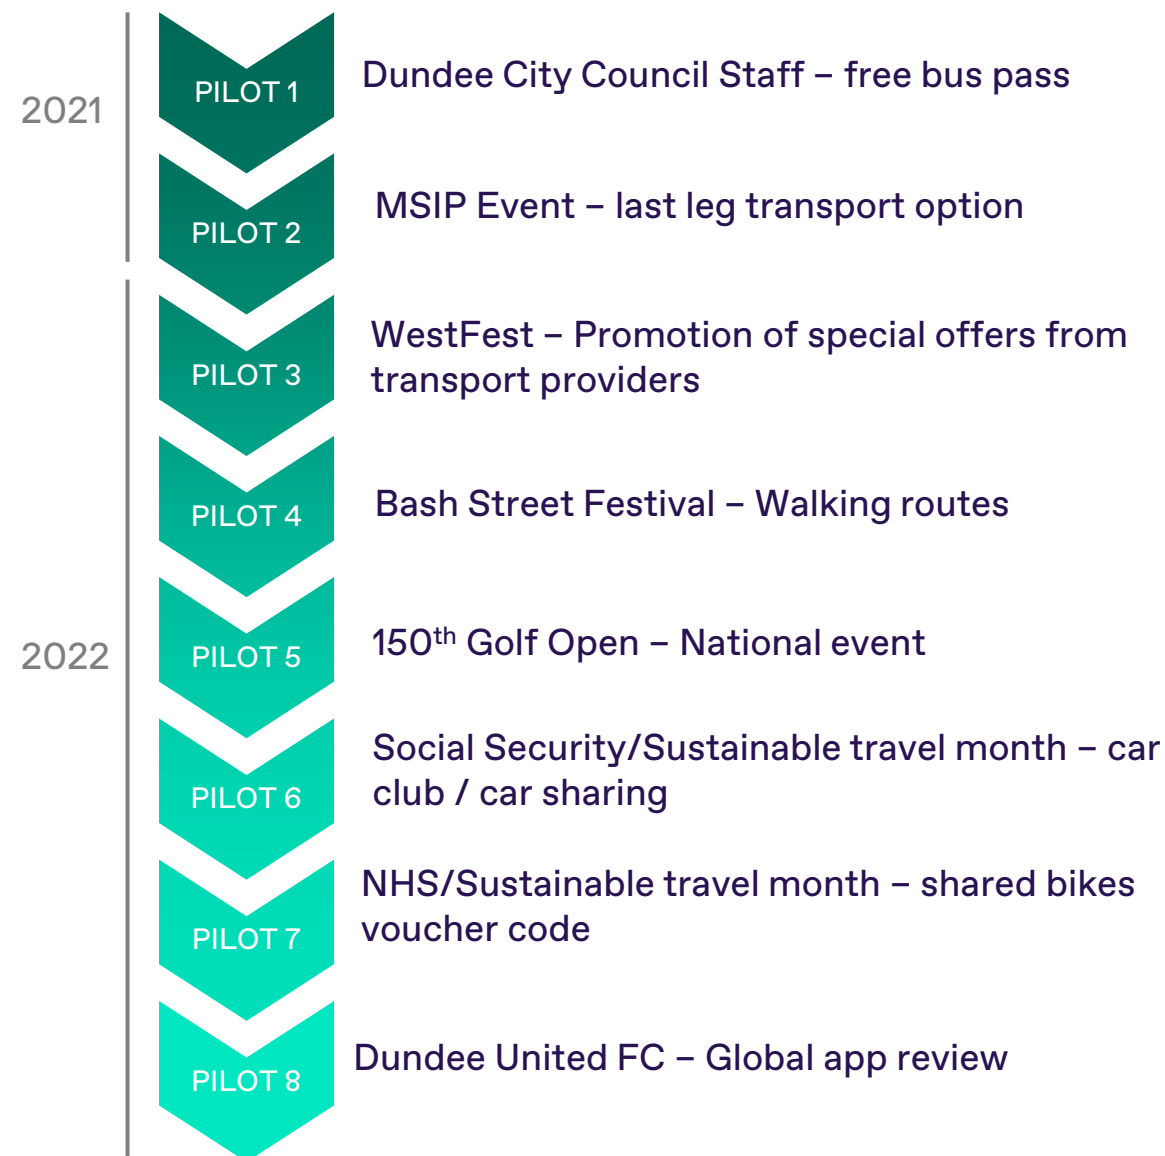

The app

The mobile app

Available on Android and iOS

8 Pilots to test 8 different key features

Kick off with a new travel app

Help test the new GetGo
Dundee travel app

Download now for
special offers and travel
options.

Improve our health
and well being

How can MaaS help Scottish transport to...

Be safe and secure for all

enable its passenger to make
healthy travel choices

help make our communities great
places to live

Integration of various modes increases the legibility, accessibility and seamlessness of the overall transport offer.

Future accessibility integration can offer a comprehensive overview of accessible transport modes, routes and bus stops.

BASH STREETS FESTIVAL APP TRIAL

**Make your
mark** for
a more
sustainable
Dundee.

Take part, download the GetGo Dundee app and use it to find travel options.

“

I’m particularly interested in this app for my 12-year-old daughter to encourage her independence and ability to use the bus service to meet friends in town.” – Dundee Get Go user.

Having all transport options gathered on one platform allows easy access to sustainable and healthier transport choices.

“

I live near Ninewells and would like to take the bus to work, but I never know when the next bus will arrive. I find your app interesting as I could take the bus and not use my car.”—
Dundee Get Go user.

NINEWELLS HOSPITAL APP TRIAL

Make your mark for
a more sustainable
Dundee.

Be part of shaping it.

Test and develop a new travel app.
Download it to find sustainable travel
options and special offers.

GetGo

The event section in the app allows for featuring community gathering around public transport and active travel, demonstrating the possibility of travelling without a car.

“

So, for me, this app was actually brilliant, and I'll definitely be converting. The points of interest and events were very, very useful” – Dundee Get Go user during a user engagement workshop.

Thank you!
